ENVIRONMENTS

DIY, airports and ports, warehouse packing and logistics, assembly, automotive, mechanical industry, construction and public works, public authorities.

WONDER GRIP® TECHNOLOGY

GRIP

Our focus is on developing gloves that are thin and easy to use whilst providing the best grip through the design and material used for each glove. We believe grip strength will improve safety.

The sponge-like coating on each Wonder Grip® glove mimics the suction cup characteristics found on the tentacles of an octopus. our focus on maximising the quality, durability and grip potential of each Wonder Grip® glove design has significantly enhanced performance in dry, wet and oily conditions.

POLYURETHANE (PU)

PU gloves benefit from superior dexterity and breathability. The Wonder Grip® gloves have embraced these advantages, but also improved on overall grip strength.

General PU glove
